## THE TRIP

Come and experience deep and transformative healing by visiting the John of God healing sanctuary in Brazil on this upcoming 13 day healing journey, from September 7 to September 19, 2009. (See below for further trip dates)

Experienced John of God guide David Griffin will provide advice and guidance throughout, as well as a compassionate and attentive touch. We will stay at one of the best pousadas and will be served three delicious meals each day. There will be additional activities such as trips to the healing waters of the Sacred Waterfall, Crystal Bed healing sessions, Brasilia tour and group meditation sessions. You may participate as much as you like in the extra activities or simply relax and be. This is also a spiritual journey!

## HEALING & THE 09/09/09

The healing sessions at the healing sanctuary will be on Wednesday, Thursday and Friday of each week. Our first day of healing on this upcoming trip will hold special energies. This will be Wednesday September 9<sup>th</sup>, 2009 - the **09/09/09** - which will bring about a Global Awakening and will usher in the New Crystalline Era. The John of God healing sanctuary was built on a rich crystal quartz deposit and the location in Abadiania was specifically selected for this reason. This is a key component that assists in the healing process. The following is an excerpt from an Arc Angel Metratron channeling about the 09/09/09 Activation, received through James Tyberone:

*The Arkansas Crystal vortex is harmonically aligned with the massive Crystal Vortex of east-central Brazil. The resonance between these two combines in axialtonal harmonic oscillation with all other crystal deposits on the planet, providing them with coding up shifts*

The 09/09/09 is a significant date this year as planet Earth continues in her cycle of major changes leading up to the 12/12/12, in 2012.
