

## PASSIFLORA

### Distant Healing

**Please do not send photos until you have read all the instructions below.**

**Photo must include: Name, Address, Date of Birth and the Healing request.**

### Procedures: There are 2 options

The first step for Distant Healing is done by your individual photo submission to the Casa. The Entity who looks at your picture can scan your energy from the photo. For adults, the entity will always suggest to take the herbs. The Passiflora herb will be in capsule form and your supply will last approximately 55 days. The herbs are energized by the Entities and are designed specifically to support your highest need. Take the herbs with food, but while you are taking them, you may not drink alcohol, eat pork or hot spicy foods. When your picture is presented, it might be marked with an "X" which means the entity wants to see you in Brazil to perform an invisible surgery. If your picture is not marked with an X, this does not mean you are not invited to come to Brazil for an in person experience, it just means it is not pressing that you come.

The herbs serve as a constant connection to the entities, the Casa and to your intentions. Distant Healing is possible due to the many Entities that are part of the healing network at the Casa de Dom Inacio. The Entities are able to be 'outside time and space' due to the fact they are no longer in human form. This is how thousands of people can be treated at once and how travelling over distances is common practice.

For **any one that is ill** or that wishes to be treated and healed by the entities, the **Distant Healing with the herbs is always recommended**. It is important for us that we are active in our healing, and committing to the herbs, the treatment, and abstaining from pork, alcohol and spicy food. Our commitment shows we are active in our healing process and mindful on a daily basis.

You can also submit your picture for healing support without taking the herbs. Your picture will **not be** presented directly to the Entities, but it will be placed in a prayer triangle where you will receive energetic support from the Casa for 1 yr.

**DISTANT HEALIN WITH A PHOTO AND HERB PERScription: \$50.00 payment required (This includes the 55 day supply of the herbs, shipment and a donation to the casa on your behalf for the energetic support you are receiving).**

Your photo must be a full body shot of you dressed in white of just you individually.

On the back, write your: full name, birth date, address and your healing request.

**BLESSING FROM THE ENTITIES WITH A PHOTO BUT NO HERBS: There is no fee** if you would like a blessing from the entities. A Blessing does not constitute a 'treatment'. This is a prayer request and as such, differs from actually having spirit Doctors and healers come and heal and work on you. For a blessing please **send a photo.**

Your photo must be a full body shot of you dressed in white of just you individually.

On the back, write your: full name, birth date, address and your healing request.

It will go in the prayer basket which sits next to John of God (in entity) during the day or in the prayer triangle. You will receive the energetic blessings from the Entities for 1 yr.
